

DualTrack™

by Oberthur Fiduciaire

The ultimate platform for security thread

The DualTrack™ is a thread with two non-adjacent tracks with different visual effects connected by bridges.

DualTrack™ allows to improve the aesthetic of the note and increases the security level (1, 2 & 3 Levels).

DESIGN PARAMETERS

Width:

Min 3 mm - Max 6 mm

Machine readability:

- UV inks
- Infrared inks
- Conductivity
- Magnetism

Available colours:

Possibility to combine various effects: OVI, holographic effect, diffractive, metallic, partially metallised.

ADVANTAGES

- Contemporary design options - Fully customised
- Fast and reliable recognition of unique combinations of optical features
- Essential reassurance against counterfeiting
- Permits «fit» recognition and magnetic reading on sorting machines
- Can be varnished
